Objective

Aspiring Data Analyst with a good foundation in data tools like SQL, Excel and Python. Currently building practical skills in data cleaning, analysis, and visualisation. Eager to apply analytical thinking and technical knowledge in the real world.

Technical Skills

Programming Language: Python, SQL, NoSQL, Software Testing, Java, C/C++

Tools: Visual Studio Code, Python IDLE, Github, Postman, Android Studio, MongoDB

Projects

EDUAspire Learning Management System Web Application:

- Implemented the Java programming Language and used MySQL to store the data of the Student, Teacher, Admin and learning resources.
- Using HTML, CSS and JavaScript for the frontend development.

IoT-Based Smart Attendance System:

- Implemented React, Firebase and IoT devices like ESP32, RFID together to create a powerful and secure application for recording attendance. Also automated the entire attendance process based on real-world college timetables.
- This project automates and handles attendance records using the Internet, ESP32, RFID Scanners and provides 24/7 support.

Education

KES Shroff College Kandivali, Mumbai

Bachelor of Science in Information Technology	SGPA: 9.6/10.0	July 2022-May 2025
---	----------------	--------------------
