EDUCATION

KES Shroff College Kandivali, Mumbai

Master of Science in Data Science (Pursuing, Sem 2 SGPA: 8.50)

July 2025 – Present

KES Shroff College Kandivali, Mumbai

Bachelor of Science in Information Technology; CGPA: 9.52

July 2022 – May 2025

EXPERIENCE

Teaching Assistant

Dec 2025 – Mar 2026

KES Shroff College, Mumbai

- Delivered lectures and practical sessions for OOP, Python, and SQL across 5 batches
- Taught 174 students through 61 lectures (3640 minutes) with 66.79% average attendance
- Designed relational datasets and SQL queries to support hands-on database learning
- Guided students in problem-solving and doubt resolution to strengthen core concepts

TECHNICAL SKILLS

Languages: Python, SQL, NoSQL

Tools: Power BI, MS Excel, MySQL Workbench, VS Code, Google Colab, Git

Libraries: pandas, NumPy, scikit-learn, XGBoost, TensorFlow, Matplotlib

Core Skills: Exploratory Data Analysis, Data Preprocessing, Feature Engineering, Machine Learning, Model Evaluation, Data Visualization

PROJECTS

Student Health Risk Prediction (Kaggle Competition) | Python, pandas, scikit-learn, XGBoost | [Write-up](#)

- Built an end-to-end analytical pipeline on 690K+ health records, including EDA, preprocessing, missing value handling, feature engineering, and categorical encoding.
- Compared Logistic Regression, Random Forest, Balanced Random Forest, and XGBoost using Stratified 5-Fold Cross Validation with balanced accuracy.
- Ranked **371st of 3,452 participants (Top 11%)** through iterative experimentation and model optimization.

Global Sales & Profit Dashboard | Power BI, Excel, Power Query | [View Project](#)

- Built an interactive Power BI dashboard analyzing sales across 7 markets and 3 product categories.
- Identified key business insights including top-performing regions, products, and customer segments.
- Designed KPI visualizations to support business decision-making.

Credit Risk Data Preprocessing & Imputation Pipeline | Python, scikit-learn | [View Project](#)

- Performed EDA and preprocessing using GenAI-assisted workflows and validated outputs
- Applied MICE with RandomForestRegressor for missing value imputation (95%+ accuracy)
- Used IterativeImputer and feature engineering for model-ready datasets
- Produced technical documentation, business reports, and presentations to communicate analytical findings to both technical and non-technical audiences.

CERTIFICATIONS

GenAI Predictive Analysis Job Simulation – [Forage](#)

Power BI for Beginners – [Simplilearn](#)

The 25-Day Python Challenge – [Udemy](#)

ACHIEVEMENTS

Winner of Hackathon – KES Shroff College (2024-2025)

Appointed Sub Head, IT Department – Indianext Hackathon 2026, KES Shroff College
